

WORK ON

U.S.

Whether it's hauling or framing, welding or grinding, planting or harvesting, there are those who embrace the toughest jobs with dedication and grit. Fueled by passion and pride to leave a lasting mark on the world around us. At Kodiak, we recognize that workers will spend more time in our boots than any other shoe they own. That's why we're dedicated to building footwear that delivers unmatched comfort, durability, and protection – hour after hour, day after day. At Kodiak, we take care of workers' feet so they can take care of the hard jobs they need to do.

SLIP-RESISTING RESULTS

THE FOLLOWING AVERAGE COEFFICIENTS OF FRICTION (COFS) WERE ATTAINED UNDER SPECIFIED TEST CONDITIONS ACCORDING TO THE CSA Z195-14 STANDARD:

Note: Floor and air temperature, type of flooring, a contaminated floor surface are all variables that can affect the slip resistance of footwear. We recommend you seek the advice of your retailer, safety officer, and/or Kodiak, a brand of Workwear Outfitters, LLC. for appropriate footwear for your application.

ASTM F2413-18
Styles with designated ASTM logo are tested in accordance with F2413-18 standard. This specification covers the minimum design, performance, testing, and classification requirements, and prescribes fit, function, and performance criteria for footwear designed to be worn to provide protection against a variety of workplace hazards that can potentially result in injury.

CSA GREEN TRIANGLE
The CSA Green Triangle indicates sole puncture protection with a Grade 1 Protective toe to withstand impacts up to 125 joules. Sole puncture protection is designed to withstand a force of not less than 1200 Newtons (122 kilos / 270 pounds).

CSA WHITE RECTANGLE
The CSA White rectangle with orange Greek letter omega indicates soles that provide resistance to electric shock. Such certified footwear contains a sole and heel design assembly that, at the point of manufacturing, has electrical insulating properties to withstand 18,000 Volts and a leakage current not exceeding 1mA for 60 seconds.

METAL-FREE TECHNOLOGY
Kodiak® ROCKFIBRE® footwear is manufactured with a metal-free protective toe and puncture-resistant plate. Metal-free components are lighter than steel and provide better insulation against the cold.

COMFORTZONE™ SYSTEM
Dual density polyurethane and OrthoLite® comfort foam footbed treated with Kodiak® SOS Smell Out Science®.

KODIAK® SOS SMELL OUT SCIENCE®
Innovative odor control technology with beneficial microbes that break down odor-causing bacteria.

COMFORTZONE™ LITE
Kodiak Comfortzone™ LITE built with OrthoLite® Hybrid™, an Open Cell PU formulation that uniquely blends 5% recycled rubber and 15% production waste foam for a total of 20% eco-content, delivering uncompromised sustainable comfort and performance with less impact on the planet.

ORTHOLITE® COMFORT FOAM
OrthoLite® comfort foam insole provides odor-fighting anti-microbial function, moisture management, and long-term cushioning.

VIBRAM
Vibram is the world leader in high-performance soling systems. We combine cutting edge sole designs with advanced rubber compounds to deliver optimum performance in outdoor, exploration, industrial and safety environments.

KODIAK | WARRANTY POLICY

Kodiak provides a 6 month warranty against defects in materials and workmanship applicable from the date of purchase. Proof of purchase is required in order to exercise the warranty. If Kodiak determines after inspecting the product that a defect has occurred as a result of normal use, Kodiak will repair or replace the defective footwear. Any wear deemed as abusive, excessive or inappropriate may void the warranty. All unworn footwear is subject to the same warranty standards (6 months) as some materials used in the manufacturing of this product may deteriorate over time regardless of wear.
